

PACE IS A DIFFERENT KIND OF CARE.

We all want the best care for our aging loved ones, but getting that care can be frustrating. If you have an aging loved one, you know what it's like to drive them from appointment to appointment; manage their medications and deal with healthcare providers who don't talk to one another. You struggle with leaving your loved one at home, alone, without the supervision or the companionship and interaction they want and need. PACE may be the answer!

A PLAN TO HELP YOU REMAIN INDEPENDENT

PACE, (Program of All-inclusive Care for the Elderly), is a comprehensive health care program for seniors who have disabilities or health concerns and wish to remain in their home while receiving all needed medical and supportive services.

PACE offers an entire continuum of care from medical services to medications, from nutritious meals to transportation - all personalized to meet your specific needs.

Senior TLC is proud to offer PACE services to our community. This model of health care has been in existence for over 40 years throughout the United States. The program focus is on prevention, wellness, and a commitment to enhance the quality of life of seniors and their families through care and support.

ELIGIBILITY

Senior TLC serves residents of Gaston County and portions of Lincoln and Cleveland counties who are certified by the State of NC as eligible for nursing home care. You must be 55 or older and able to live safely in the community at the time of your enrollment.

COSTS

The PACE model is typically funded by Medicare and Medicaid to deliver necessary care. All your necessary healthcare services may be provided if you are covered by Medicare and/or Medicaid. If you qualify only for Medicare, there is a set monthly fee you will be asked to pay. Private pay seniors who aren't covered by Medicare or Medicaid, but choose to pay for our services, may also be accepted. Upon enrollment in the program, the participant agrees to receive all health care services through Senior TLC's health care network of providers. Participants may be liable for the cost of medical services from an out-of-network provider or without prior authorization with the exception of emergency services. PACE is a voluntary enrollment program; a participant may disenroll at any time.

OUR PACE CARE TEAM AT SENIOR TLC

PACE has doctors, nurses, therapists, dieticians, pharmacists, social workers, personal care aides and activities staff who work as a team to help you stay at home and in the community. You'll have peace of mind knowing a safety net of services is available to take care of your needs.

PACE DAY CENTER

Our day center is open five days a week, with transportation services, and provides a fun and friendly place where you'll find medical, rehab and support services. You can take pleasure in meals with friends, enjoy social activities and get the support you need to make life more fulfilling.
